

We start with any four numbers (not zero!):

We then add them in pairs and place the total above each pair:

And we then add in pairs the new numbers:

We do the same with those two numbers to get our final number:

You need to find four starting numbers to place at the bottom so that when you get to the top you reach 15.

Try to find as many starting numbers as you can.

Think about good ways of doing this. You may want to use a system!
