

the earth is 40,075,000,000 cm

How many teddies fit
around the world (cm)

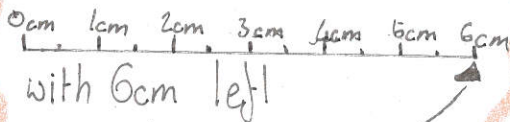

We are measuring
the teddies head to toe
around the world

We need

21,092,1052

teddies to fit around
the whole world

Because there is too many
we have an extra 6cm
(and you can't split a teddie)
we have round down

210,921,052.6

round down

210,421,052
