

HOW MANY LITTLE BEARS CAN FIT IN A PENCILCASE

Pencilcase

Depth = 9cm

Width = 9.5cm

Length = 20cm

$$20\text{cm} \times 9.5\text{cm} = 190\text{cm}$$

$$2\text{cm} \times 4\text{cm} = 8\text{cm}$$

$$190\text{cm} \div 8\text{cm} = 23$$

Bears on base
= 23

4 layers because 9
is divided by 2.

$$23 \times 4 = 92$$

92 Bears
