

The NRICH Maths Roadshow is coming!

**A day of puzzles, games and hands-on activities
to train your creative mathematical brain.**

The NRICH Roadshow will be here on:

Coins

Someone has five coins in their pocket.

They can make 13 different amounts
of money with their coins.

The amounts of money they can make
end with one of two possible digits.

They cannot afford an item
costing one pound.

They can make a prime number
bigger than ten with their coins.

They cannot make exactly 70 pence.

Can you work out what the coins are?
