

# THINKING FUTURES

Thinking Futures invites you to attend

## Everyday Maths

video resource launch

9 November 2015  
5pm - 7pm

The Everyday Maths workshops empower parents to recognise the mathematics they use in everyday life, and to share that with their children. Everyday family activity is used as a starting point, and parental discussion allows the mathematics in family activity to be revealed and reflected upon. Including free video and toolkit resources designed to help schools facilitate workshops, and discuss with participants the ways in which schools and parents can engage with each other. Booking required.

### Speakers:

Dr Jo Rose, University of Bristol

Dr Tim Jay, Sheffield Hallam University

Room 4.10  
Graduate School of Education  
35 Berkeley Square  
Bristol BS8 1JA

ESRC  
FESTIVAL  
OF SOCIAL  
SCIENCE
