

## PLAY TO 37

### Questions

Q1 What do you notice?

Ans When ~~we~~ ~~the~~ first a person lands his/hers opponent into numbers - 36, 34, 32, 30 he/she will win. Why? If he/she lands the opponent into 36, he will chooge 1 and win. if he/she land the opponent into 34 he/she will chooge 3 and win same goes for 32 and 30. For 32 he/she need to p will choose the number 5 and for 30, 7.

Q2 Is this a fair game?

Ans NO - because I have observed that the first player always wins.

Q3 Do both players have an equal chance of winning? Why or why not

Ans They do not have an equal chance of winning. Why? Because I have observed the first player always wins.
