

16/6/26

Math

1. The purple square has to be 2 because any value above will make  above 12
2. Hence  = 8
3. Based on the 2nd equation  = 4
4. Based on the 3rd equation  = 3 and  = 12
5. Based on the 4th equation  = 6
6. Based on the 7th equation  = 9
7. Based on the 9th equation  = 1
8. Based on the last 2 equations  = 0
9. The numbers remaining = 5, 7, 10, 11.
10. Based on the 8th equation  = 5 and  = 10 because any number multiplied by 2 has to be even
