

1, 3, 5, 7 only 13 one, 3 three, 11 seven & 13 five

It can't be done.
 Because 1, 3, 5 & 7 are all odd numbers.
 The sum of ten odd numbers is always even but 37 is odd

← answer

13 one = 13
 11 seven = 77
 13 three = 39
 13 five = 65

12 three = 36
